

# Vieunite.

# Vieunite Artist FAQs

## WHAT

is Vieunite?

Vieunite combines an innovative digital canvas with a growing online art community.

It creates a unique and contemporary market place for artists to share and sell their work; and art collectors can support artists they admire by displaying artwork on the Textura digital canvas.

## WHY

should I become a Vieunite Artist?

Becoming a Vieunite Artists opens the doors to a whole new audience and revenue stream. Not only will your work reach a new and wider audience, the opportunities for collaboration with other artists are also significantly more accessible.

You can access all of these benefits with minimal effort, once you have uploaded a digital version of your art pieces, no further work is required.

## HOW

does the whole process work?

The process is extremely easy. All you need to do is upload a digital copy of your work, or digitise it (photo or scan) if necessary. It's important to ensure that the resolution meets the requirements, but we can help you with this to make the process easier.

Once your work is uploaded, you continue to maintain complete copyright ownership of your art, and you can select the price of each piece. To access and withdraw the funds from your sales, simply login to the artist portal on the Vieunite website.

It's important to note that Vieunite charges a 10% fee on each artwork sold, which covers the expenses of maintaining and improving our platform.
